SUBJECT: German Scientists and Technicians.

TO : United States Group Control Council (Germany) APO 757
U. S. Army. (Attn: Mr. Hogland - Industry Division)

In order that the Military Government authorities may be relieved of responsibility for housekeeping a large number of useless Germans of a so-called scientific or technical group, a staff study was processed which would have the effect of releasing from restriction on 10 October all those who were removed from the Russian Zone unless individual requests are received for further retention. Since a number of persons appear to be of industrial interest, the attached list is forwarded for your rapid perusal and selection of any for which you may have a future demand.
